		6' Ht.	80' Height, 20' Spread Dark green, short needles
		6' Ht.	75' Height, 40' Spread Bright green, long needles

FREQUENTLY ASKED QUESTIONS?

When will the tree be planted?

Fox Bend Golf Course reserves the right to decide when the planting will occur. Spring and fall seasons are the best time for tree plantings. One day in the spring and one day in the fall will be selected as donated tree planting days. The date will be selected once we have enough trees to fill a day for planting.

How big will the tree be when planted?

Deciduous, single trunk trees are measured by caliper. Caliper is the diameter of the trunk of the tree at 6" above the root ball. A 2 1/2" Caliper tree can vary in height when it is planted depending on species and supplier (approx. 12' - 16' tree height). Multi-stem or Evergreen trees are measured by height. For example a 6' Colorado Spruce will measure anywhere between 5'6" and 6'5" tall.

Why aren't Ash trees listed?

Due to the infestation of the Emerald Ash Borer in Northern Illinois, Fox Bend Golf Course has put a moratorium on planting all ash tree species at our course. We hope that some day soon, the borer will be eradicated and that we will be able to plant these beautiful and hardy trees once again..

*** Available for spring planting only.**

PLEASE NOTE:

1. The Fox Bend Golf Course reserves the right to assist in the selection of tree species best suited for the soil type, as well as the location and timing of the tree planting.
2. The donation amounts are subject to change without notice.

Please call the Fox Bend Golf Course
for additional information: 630-554-3939.
