Executive Summary

Oswegoland Park District

Comprehensive Community Needs Assessment Survey Executive Summary Report

Overview of the Methodology

ETC/Leisure Vision conducted an Oswegoland Park District Comprehensive Community Needs Assessment Survey Summer of 2014 to help establish priorities for park and recreation priorities for the community. The survey was designed to obtain statistically valid results from households throughout the Oswegoland Park District. The survey was administered by mail, web and phone.

ETC/Leisure Vision worked extensively with the Oswegoland Park District officials in the development of the survey questionnaire. This work allowed the survey to be tailored to issues of strategic importance to help plan the future system.

A seven-page survey was mailed to a random sample of 3,000 households throughout the Oswegoland Park District. Approximately three days after the surveys were mailed each household that received a survey also received an automated voice message encouraging them to complete the survey. In addition, about two weeks after the surveys were mailed ETC/Leisure Vision began contacting households by phone. Those who had indicated they had not returned the survey were given the option of completing it by phone.

The goal was to obtain a total of at least 600 completed surveys. ETC/Leisure Vision met that goal with a total of 655 surveys completed. The results of the random sample of 655 households have a 95% level of confidence with a precision rate of at least +/-3.8%.

The following pages summarize major survey findings.

Major Findings:

Benchmarks

National Benchmarking

Since 1998, Leisure Vision (a division of ETC Institute) has conducted household surveys for needs assessments, feasibility studies, customer satisfaction, fees and charges comparisons, and other parks and recreation issues in more than 700 communities in over 45 states across the country.

The results of these surveys has provided an unparalleled data base of information to compare responses from household residents in client communities to “National Averages” and therefore provide a unique tool to “assist organizations in better decision making.”

Communities within the data base include a full-range of municipal and county governments from 20,000 in population through over 1 million in population. They include communities in warm weather climates and cold weather climates, mature communities and some of the fastest growing cities and counties in the country.

“National Averages” have been developed for numerous strategically important parks and recreation planning and management issues including: customer satisfaction and usage of parks and programs; methods for receiving marketing information; reasons that prevent members of households from using parks and recreation facilities more often; priority recreation programs, parks, facilities and trails to improve or develop; priority programming spaces to have in planned community centers and aquatic facilities; potential attendance for planned indoor community centers and outdoor aquatic centers; etc.

To keep the benchmarking data base current with changing trends, Leisure Vision’s benchmarking data base is updated on an annual basis and we only use citizen survey results going back a maximum of five years in our current benchmarking averages.

Results from household responses for the Oswegoland Park District were compared to National Benchmarks as well as Illinois to gain further strategic information. A summary of all tabular comparisons are shown on the following pages.

Survey Instrument

***A Few Minutes of Your Time Will Help Make the Oswegoland Park District a
Better Place to Live, Work and Play!***

Dear Oswegoland Park District Resident:

Your response to the enclosed survey is extremely important...

The Oswegoland Park District is conducting a Community Interest and Opinion Survey as a part of a Strategic Plan to establish priorities for the future improvement of parks and recreation facilities, programs and services within the community. Your household was one of a limited number selected at random to receive this survey, therefore, it is very important that you participate.

We appreciate your time...

We realize that this survey will take approximately 10-15 minutes to complete, but each question is important. The time you invest in completing this survey will aid the Oswegoland Park District in taking a resident-driven approach to making decisions that will enrich the future of our community and positively affect the lives of its residents.

Please complete and return your survey within the next two weeks...

We have selected Leisure Vision/ETC Institute, an independent consulting company, as our partner to administer this survey. They will compile the data received and present the results to the Oswegoland Park District. *Your responses will remain confidential.* Please return your completed survey in the enclosed postage-paid envelope addressed to ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061. If you prefer to take the survey by web the address is www.oswegolandparkdistrictsurvey.org

Should you have any questions regarding the community survey, please contact Rich Zielke, Executive Director in the Oswegoland Park District at 630.554.1010 or by email rzielke@oswegolandpd.org.

The Community Survey is a tool that will benefit all residents. Please take this opportunity to let your voice be heard!

Sincerely,

The Oswegoland Park Board of Commissioners

Comprehensive Community Needs Assessment Survey: *Let your voice be heard today!*

The Oswegoland Park District would like your input to help determine park and recreation priorities for our community. This survey will take 10-15 minutes to complete. When you are finished, please return your survey in the enclosed postage-paid, return-reply envelope. We greatly appreciate your time.
