

LEVEL UP!

Gymnastics is a progressive sport that requires consistent repetition in order to advance. All skills must be mastered to safely move to the next level. A skill is mastered when it can be performed consistently with proper form. Participants should register for consecutive sessions of their current level until evaluations are distributed in May, August, and December. If you are unsure of your child's level or it has been more than one session since your child participated, please call Brieanne at 630.554.4456 to set up an evaluation.

WHEN WILL MY CHILD MOVE UP?

Below is a general guideline showing the average amount of time a child may spend in each level. Some children may progress more quickly or more slowly than outlined depending on consistency in attendance and participation. Gymnastics is an individual sport with many difficulties, including but not limited to, work ethic, natural flexibility and strength, skills and mental toughness. Please speak with your child's coach if you have questions regarding their progress.
