Why ePACT?

To Save You Time - You only need to complete your child's information once. Information is verified for any additional programs or subsequent years, and can be completed in minutes. Quickly log in to make any necessary updates and we will be notified immediately.

If you have more than one child registered, shared family information only needs to be entered once.

For Better Security & Privacy - ePACT's high encryption levels and commitment to security allows us to limit and track access. Meaning your information is safer than on paper.
